Glass door refrigerated display cabinet designed for connection to an external unit or to a central refrigeration unit. It is a display cabinet with a variable system of shelves, hooks, bars and special holders. It is designed for presentation and storage of meat, sausages or cheese, or beverages.

INSULATING DOUBLE GLAZING OF SLIDING DOORS reduce energy consumption, reduce condensate formation, which contributes to for better product visibility

SOPHISTICATED COOLING SYSTEM with automatic defrosting keeps all presented products fresh for a long time and significantly extends their shelf life

LED LIGHTING OF INDIVIDUAL SHELVES ensures visibility of the products on display

EASY ACCESS TO THE DISPLAY ASE trouble-free maintenance and easy operation

THE HOOD WITH DEFROSTING RODS located at the top of the display case ensures the ideal temperature for keeping fresh meat on special hooks

OPTIONAL AFFILIATION

Designed for:

- mainly for meat and butcher shops, where the display case is installed directly on the wall or placed on a counter against the wall behind the operator's back
- other catering** establishments where chilled products need to be preserved and made visible
